

# Welcome to Thérapie Fertility Clinic

TREATMENT & TESTING PRICE LIST

# Making it Possible

We believe that fertility treatment should be **accessible for everyone**, it's one of the core values behind our clinic.

Because of this we have payment plans provided through our partner humm, that will allow you to avail of fertility treatment without paying for the whole package up front. **We are proud to be the first fertility clinic in Ireland to provide this service.** At such an important and sometimes stressful time in your life, the convenience of having monthly payments is one less thing for you to worry about.

Everyone deserves a chance to become a parent and we hope that our lower prices and affordable service will allow more people to realise their dream of growing their family.

**Thérapie Fertility is the first fertility clinic to become JCI (Joint Commission International) accredited for ambulatory care.** As an accredited clinic, you can check with your health insurance provider to see what support they can offer you with fees on your individual plan. Thérapie Fertility is authorised by the three leading health insurers in Ireland, VHI, Irish Life Health and Laya, meaning you may be eligible for financial benefits of up to €2000 towards your treatment depending on your policy.

We are proud to be an approved provider of Fertility Treatments for the publicly funded HSE treatment packages.

Dublin Clinic  
JCI Accredited

# All-Inclusive Fertility Treatments for One Price

Our complete packages include everything you need with no hidden costs. Our IVF and ICSI packages include, timelapse incubation, Artificial Intelligence prediction software and embryo freezing as standard.

## Payment Information

At Thérapie Fertility we are committed to using an entirely paperless and digital process. Reducing waste and ensuring convenience for you. You will be able to pay for your treatments via our Patient Portal using Global Payments. If you opt to use our finance partner and spread out the cost of your treatment, you will be able to set up an account with humm and pay them directly. No matter which way you choose to pay, we are confident that your experience will be hassle free.

We do not charge for a scan or first pregnancy blood test following a treatment cycle. Please note that the medication needed as part of your fertility treatment is not included in the cost of your treatment.
